

MONTGOMERY COUNTY OFFICIALS UPDATE CORONAVIRUS OUTBREAK

Status Update from the Office of Homeland Security and Emergency Management

**FOR IMMEDIATE RELEASE:
April 8, 2020**

MONTGOMERY COUNTY – Montgomery County Public Health District, in conjunction with Montgomery County Office of Emergency Management, can confirm there are now 210 positive cases of COVID-19, up 13 cases from yesterday. We are happy to say 53 of our cases have fully recovered!

If someone in your household is having symptoms of COVID-19 including cough, fever and/or shortness of breath, your entire household should self-quarantine for 14 days regardless of whether they have been tested or not been tested. You should also monitor symptoms of everyone in the household, including twice-daily temperature checks – once in the morning and once in the evening. You can find more details here: <https://www.cdc.gov/coronavirus/2019-ncov/php/public-health-recommendations.html>.

If you and your entire household are well with no symptoms, you should still be staying home and only leaving your home if necessary.

Details on Montgomery County cases can be found here: <https://mcphd-tx.org/coronavirus-covid-19/confirmed-cases/>.

Montgomery County Public Health District's mission is promoting a healthy, resilient community through health education, disease prevention, clinical services, and emergency preparedness. For more information about the Montgomery County Public Health District please go to www.mcphd-tx.org.
