Max Dew Point, °F	37	36	35	33	27	30	44
Min Dew Point, °F	36	34	29	28	13	9	31

While the forecast still remains a bit uncertain, the National Weather Service is increasingly confident in the possibility of snow, sleet, and freezing rain to create hazardous conditions across Southeast TX on Sunday night and Monday. **Monday night into Tuesday morning is when Montgomery County is expecting the coldest temperatures. Temperatures for some locations will likely not make it above freezing on Tuesday. Travel will become dangerous for our area starting Sunday night into Tuesday morning.**

Additionally, there is the potential for additional winter weather in the area on Wednesday and Thursday. The Montgomery County Office of Homeland Security and Emergency Management will continue to monitor this situation, and our next update will be tomorrow afternoon.
