

Follow the Water . . . From Lake Conroe to your Morning Coffee!

Join us for a three-part series, hosted by Woodlands Water, presented by Ron Kelling, P.E., Deputy General Manager for the San Jacinto River Authority, to understand where your water comes from and how it gets delivered to your tap!

Each session will be **one hour**, from **12:00 noon to 1:00 pm** and will be presented via Zoom.

- I. **Water: The Who and the What** Date: 9/7/21
- II. **Wet & Wild . . . Science at Work** Date: 9/9/21
- III. **Turn on the Tap** Date: 9/14/21

To receive a Zoom link, please send email request to: plpjabradshaw@gmail.com, indicating which session(s) you wish to attend.

About SJRA:

SJRA is a public entity created by the Texas Legislature whose mission is to develop, conserve, and protect the water resources of the San Jacinto River basin. Covering all or part of seven counties, the organization's jurisdiction includes the entire San Jacinto River watershed, excluding Harris County. The SJRA is one of two dozen river authorities in the State of Texas, and like other river authorities, its primary purpose is to implement long-term, regional projects related to water supply and wastewater treatment.

About Woodlands Water:

Woodlands Water is the central management agency for the ten Municipal Utility Districts (MUDs) that currently serve The Woodlands in Montgomery County. The services provided are water distribution, wastewater collection, storm drainage and tax collection services.

The principal objective of Woodlands Water is to provide the MUDs with professional, reliable and quality services consistent with fiscal responsibility. Woodlands Water is also committed to improving their efficiency and effectiveness at maintaining the utility infrastructure and enhancing communication with their customers.
